Problem Statement

- Large amounts of data

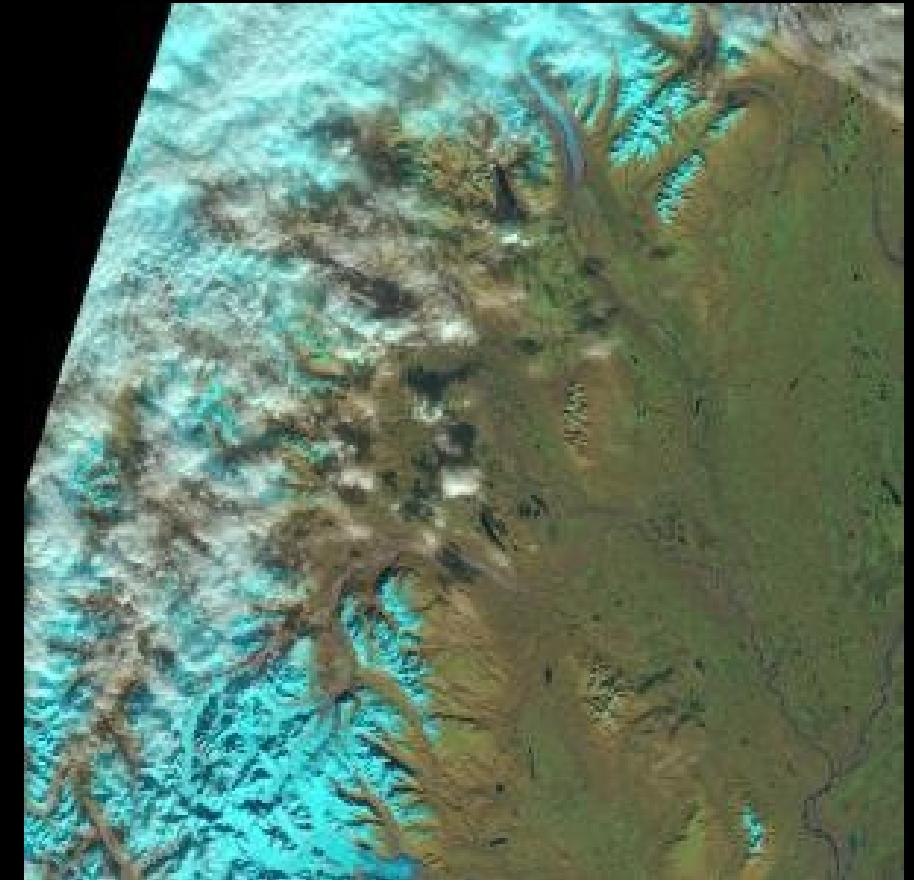

Solution space

- Sonification of data
 - To aid data analysis
 - Draw attention to areas of interest in the data
 - Increase public engagement
 - Increase immersion
 - Increase interaction

Solution space

- Sonification of data
 - To aid data analysis
 - Draw attention to areas of interest in the data
 - Increase public engagement
 - Increase immersion
 - Increase interaction

Challenge

- Our team will make this data presentation idea
 - More immersive
 - By applying it to VR
 - More interactive
 - VR fly-through of the data
 - Head pose driven

Use cases

- This solution has viable benefits for

- Improved data analysis
- Increased public engagement
- Education
- Aid to the visually impaired
